Introduction

This publication builds on an earlier release by the Statistics and Data Development Unit entitled *"2001 Census of Agriculture for Alberta, I.D., M.D., and County Data by Region"*. In that publication, data were presented by grouping Improvement District, Municipal District and County data for selected farm variables. This latest publication goes a step further in restructuring the same farm variable information with the objective of building individualized Improvement District, Municipal District and County profiles. The data used in this publication was from a special custom run obtained from Statistics Canada, based on the 2001 Census of Agriculture, conducted on May 15, 2001. For more information about the Census of Agriculture, readers are encouraged to visit the **Statistics Canada** website at www.statcan.ca, or the **Alberta Agriculture, Food and Rural Development** website at www.agric.gov.ab.ca.

The "Alberta Municipality Profile – 2001 Census of Agriculture" consists of five publications which are based on the former five AAFRD agricultural administrative regions (South, Central, North East, North West and Peace). It is important to note that while **AAFRD no longer uses the agricultural administrative regions**, these have been maintained for the convenience of users to facilitate data comparisons with some of the previous Census years.

Also worth noting, is that data confidentiality (as designated by an "x") at the Municipality level has resulted in some regional totals not adding up to the provincial total due to data suppression.

Users are encouraged to refer to the section on the Census definitions and notes for explanations of terms used in this report. Also, for spatial data interpretation, users are advised to refer to the Alberta map with its regional boundaries, and Alberta Municipalities Classified by Region.

Comments or questions regarding the data should be directed to:

Marion Harry, Research Assistant
Statistics & Data Development Unit
#302, 7000 – 113 Street
Edmonton, Alberta T6H 5T6
Telephone: (780) 427-9206
E-mail: marion.harry@gov.ab.ca
Fax : (780) 427-5220

Acknowledgements

The invaluable assistance from all of those who provided input to this publication is greatly appreciated. In particular, a number of people merit special recognition, as follows:

From the Statistics and Data Development Unit, AAFRD: Karyn Andruchow, Roy Larsen and Andrew Tang for the many hours spent in working directly with the processing and formatting of the custom data; Gail Atkinson for the design of the covers; and Chuanliang Su for his invaluable comment on methodology, content and format.

From Statistics Canada: Bernard Houle (User Services and Marketing, Ottawa), and Bruce Meyers (Edmonton), for providing in a timely manner, the custom data used in this publication.

And finally, Unit Leader Reynold Jaipaul for providing leadership and resources throughout the process.

Note to Users

The contents of this document may not be used or reproduced without properly accrediting the **Statistics and Data Development Unit, Economics and Competitiveness Division, Alberta Agriculture, Food and Rural Development.**

Census Definitions and Notes

General Notes

Conversion Factors

1 acre = 0.404 685 6 hectares
1 hectare = 2.471 acres
1 square foot = 0.092 903 04 square meters
1 square meter = 10.763 91 square feet
1 kilogram = 2.204 622 6 pounds
1 pound = 0.453 592 4 kilograms

Rounding

Totals may not equal the sum of their parts due to the use of conversion factors or the rounding of fractions to whole numbers.

Amalgamations

Due to confidentiality constraints, data for subdivisions with very few farms were combined with data from adjacent areas. In most cases, the name of the amalgamated subdivisions is identical to the largest component of the amalgamation.

- Starland County refers to: Drumheller and Starland County
- Lakeland County refers to: Improvement District No. 24 (Wood Buffalo) and Lakeland County
- Ranchland M.D. No. 66 refers to: Kananaskis Improvement District, Improvement District No. 9 (Banff), Improvement District No. 12 (Jasper), Crowsnest Pass, and Ranchland M.D. No. 66
- Lesser Slave River M.D. No. 124 refers to: Opportunity No. 17 and Lesser Slave River No. 124

Data are not available for:
(due to minimal or no agricultural activity)

- Improvement District No. 4 (Waterton Park)
- Improvement District No. 13 (Elk Island)
- Improvement District No. 25 (Willmore Wilderness Park)

Headquarters Rule

Many agricultural operations in Canada are composed of numerous parcels of land in a number of locations. These different locations are often situated in several geographic areas (such as townships or counties). In these situations, the "headquarters rule" assigns all data collected for the agricultural operation to the geographic area where the farm headquarters is located.

Incomplete Enumeration of Indian Reserves and Indian Settlements

On some Indian reserves and Indian settlements in the 2001 Census, enumeration was not permitted or was interrupted before it could be completed. Moreover, for some Indian reserves and Indian settlements, the quality of the enumeration was considered inadequate. These geographic areas are called incompletely enumerated Indian reserves and Indian settlements.

Data for census farms located on these incompletely enumerated reserves and settlements are therefore not available. The impact of the missing data is very small for higher-level geographic areas (Canada, provinces, and census agricultural regions). However, the impact is more significant for those smaller areas (census divisions and census consolidated subdivisions) in which the affected reserves and settlements are located.

For a listing of the names and locations of the incompletely enumerated Indian reserves and Indian settlements, please refer to the Statistics Canada web site at http://www.statcan.ca.

Land Use in 2001

- Total Land in Crops includes all areas reported for field crops, fruits, vegetables, nursery products and sod.
- Summerfallow includes idle land that has not been worked or sprayed for more than one year.
- Tame or Seeded Pasture refers to land that has been cultivated and seeded, or drained, irrigated, fertilized or controlled for brush or weeds; does not include areas to be harvested for hay, silage or seed.
- Natural Land for Pasture refers to native pasture, native hay, rangeland, grazable bush, etc.
- All other land includes land on which farm buildings, barnyards, lanes, home gardens, greenhouses and mushroom houses are located; idle land; woodlots; sugarbush; tree windbreaks; bogs; marshes; sloughs; woodland; wetland, etc. All other land includes Christmas tree area.

What's new for 2001?

Computer Use for farm Management

As it has since 1991, the Census of Agriculture includes data on the number of farmers using a computer to manage their farm. In 2001, however, data is also available for the first time on whether they are using it for

accounting, inventory control, word processing, Internet, email or some other application.

Leased Machinery

In 2001, the Census of Agriculture asked respondents to distinguish between "owned" and "leased" for each type of farm machinery and equipment. Past censuses have not made this distinction.

Certified Organic Products

2001 data also includes information on how many farmers are producing certified organic commodities and categorizes them by type (fruit, vegetables, greenhouse products, field crops, animals or animal products, or "other").

Deleted Topic in 2001

Capital Purchases

The entire topic was excluded since more complete information is available through the Farm Financial Survey, which is conducted every two years.

Definitions

Certified Organic Products

Certified organic products come from farms that are operated according to a set of principles requiring the avoidance of manufactured chemicals whose adherence to these principles is verified by a third party authorized to certify the operation.

Contour Cultivation

Contour cultivation is the practice of cultivating the field across the slope to reduce soil erosion from rapid water run-off.

Crop Rotation

Crop rotation is a practice where crops are alternated each year, or in a multi-year cycle, for soil conservation or disease control purposes.

Family Corporation

A family corporation is an agricultural corporation in which an individual or family owns the majority of the corporation shares.

Farm

A census farm is an agricultural operation that produces at least one of the following products intended for sale: crops (hay, field crops, tree fruits or nuts, berries or grapes, vegetables, seed); livestock (cattle, pigs, sheep, horses, game animals, other livestock); poultry (hens, chickens, turkeys, chicks, game birds, other poultry); animal products (milk or cream, eggs, wool, furs, meat); or other agricultural products (Christmas trees, greenhouse or nursery products, mushrooms, sod, honey, maple syrup products).

Farm Capital

Farm capital includes the value of all farmland, buildings, farm machinery and equipment (including passenger vehicles used in the farm business) and livestock and poultry. Respondents report the value of their land, buildings, farm machinery and equipment as of Census Day. Values for livestock and poultry inventories reported in the census are calculated using data on average farm prices for the various types of livestock and poultry. Farm capital does not include the value of crops in the field or in storage, or farm inputs on hand, such as fertilizer and seed.

Farm Operators

In 2001, 1996 and 1991, "farm operators" was defined as those persons responsible for the day-to-day management decisions made in the operation of a census farm or agricultural operation. Up to three farm operators could be reported per farm. Prior to the 1991 Census of Agriculture, the farm operator referred to only one person responsible for the day-to-day decisions made in running an agricultural operation.

Farm Type

Farm typing is a procedure that classifies each census farm according to the predominant type of production. This is done by estimating the potential receipts from the inventories of crops and livestock reported on the questionnaire and determining the product or group of products that make up the majority of the estimated receipts. The commodity or group of commodities that account for 51 per cent or more of the total potential receipts determines the farm type.

"Grain and Oilseed" farm type includes the following farm types: oilseed, corn for grain, dry field pea and bean, and other small grain.

"Field Crops" farm type includes the following farm types: hay and fodder crops, forage seed for seed, tobacco, potato and other field crops.

"Miscellaneous Specialty" farm type includes the following farm types: sheep and lamb; goat; horse and pony; fur; other livestock specialty; mushroom; greenhouse products; nursery products and sod; maple; and Christmas tree.

"Livestock combination" farm type includes cattle and hog farms; cattle, hog and sheep farms; and other livestock combination farms.

"Other Combination" farm type includes other field crop combination farms; fruit and vegetable combination farms; and all other types of farms.

Grassed Waterways

Grassed waterways are either natural or constructed to control soil erosion. The waterway is permanently grassed and consists of a shallow channel, which is designed to slow down run-off water. The grass stabilizes the soil and prevents it from being washed away. They are usually shaped to allow easy crossing by farm machinery.

Green Manure Crops for Plough Down

A green manure crop for plough down is the practice of incorporating young green plants into the soil for fertility purposes. These plants are usually grown with the single purpose of being used as a soil improver. Common examples are buckwheat and red clover.

Gross Farm Receipts

Farm receipts measure the gross revenue generated by agricultural holdings. They are not a direct measure of profit since operating expenses have not been deducted. The data for receipts were reported for the previous calendar year or for the last complete accounting (fiscal) year.

Gross Receipts include:

- receipts from all agricultural products sold
- marketing board payments received
- program and rebate payments received
- GST refunds received
- dividends received from co-operatives
- receipts from maple syrup and Christmas tree sales
- custom work and all other farm receipts
- forest products (firewood, pulpwood, logs, fence posts, pilings and standing timber)

Gross Receipts do not include:

- receipts from the sale of capital items (e.g. land, buildings or machinery)
- receipts from the sale of goods bought only for retail sales

NOTE: Farm receipts data from the Census of Agriculture are not directly comparable with the similarly named series derived on an annual basis by Statistics Canada (published in Catalogue No. 21-603, "Agriculture Economic Statistics"). Census data includes inter-farm transactions, i.e., the value of agricultural products (livestock and poultry, seed and seedlings and feed) sold from one farm to another within the same province. The annual series excludes inter-farm sales.

Hired Paid Labour

Work done on the farm during the previous calendar year by persons 15 years of age and over, either on a year-round, seasonal or temporary basis. Work excludes housework, custom work and non-agricultural work. Agricultural and manpower researchers use data on hired labour to estimate and evaluate labour requirements and for planning training programs.

Interest Expenses

Refers to interest on operating debt and on all other debts (e.g., machinery or mortgage debt) for the previous calendar year or for the last complete accounting (fiscal) year. Interest expenses do not include payment of principle or amount of debt outstanding. Interest expenses as a percent of total expenses is used as a proxy for debt since actual debt levels are not reported in the census.

Livestock Inventory

Includes all animals on the farm, regardless of ownership, and any animals owned but pastured on a community pasture, grazing co-op or public land. Livestock on farms exclude animals owned but kept on a farm, ranch, or feedlot operated by someone else.

Livestock data from the census are used as the basis for annual estimates and for estimating inventories, production and future supplies of animals and animal products for domestic consumption and export. Farmers use census estimates to make production and marketing decisions while government departments, private companies and farm media use census information in market analysis and formulation of agricultural outlooks.

Mechanical or Hand Weeding of Crops

Mechanical or hand weeding of crops is extracting weeds mechanically or by hand.

Natural Land for Pasture

Natural land for pasture is grazable land that has not been recently improved.

Non-family Corporation

A non-family corporation is an agricultural corporation in which a group of unrelated individuals own the majority of the corporation shares.

one acre or more with sales of agricultural products of $50 or more. In 1981 and 1986, the minimum sales requirement was increased to $250.

In 1991, a farm was referred to as a census farm, ranch or other agricultural holding which produces at least one of the following products intended for sale (no minimum sales requirement): crops, livestock, poultry, animal products, greenhouse or nursery products, mushrooms, sod or honey.

(2) Net Farm Operating Income

Salaries and wages paid to family members were excluded from Farm Operating Expenses when calculating Net Farm Operating Income.

(3) Operating Arrangements

The 1996 questions on year of incorporation for corporate farms and on other types of operations were omitted from the 2001 Census questionnaire.

(4) Farm Type

A farm is classified according to the predominant commodity produced. The commodity or group of commodities that account for 51 per cent or more of the total gross farm receipts determines the farm type.

(5) Land Tenure

In 2001, the *area sharecropped, rented or leased from others* was split into two separate categories:

- *Area rented or leased from others*
- *Area crop shared from others*

(6) All Other Land

All other land includes land on which farm buildings, barnyards, lanes, home gardens, greenhouses and mushroom houses are located; idle land; woodlots; sugarbush; tree windbreaks; bogs; marshes; sloughs; etc.

Since 1996, "All Other Land" also includes Christmas tree area. Some operators reported unplanted land intended for crops as idle land (a component of "All Other Land") since at the time of the Census of Agriculture, they were uncertain as to whether this land would be planted. This situation only affected farms not included in the Progress of Seeding Follow-up.

(7) Paid Agricultural Labour

Work done on the farm during the previous calendar year by persons 15 years of age and over, either on a year-round, seasonal or temporary basis. Work excludes housework, custom work and non-agricultural work.

(8) Value of Farm Machinery and Equipment

For the 1996 and 2001 Census of Agriculture, operators were asked to report the present market value of all farm machinery and equipment that they owned or leased on Census Day.

Changes made in 2001 are as follows:

- *Number* of items column used in 1996 was split into two categories:
  -Number owned
  -Number leased
- *Irrigation equipment* was added as a separate category
- Separate categories on *Two-wheel drive* and *Four-wheel drive* tractors were dropped from the 2001 questionnaire
- *Tractors under 20hp.*, *Tractors 20-39 hp.*, and *Tractors 40-99 hp.* used in 1996 were combined into one category: *Tractors under 100 hp.*
- *Self-propelled grain combines* and *Pull-type grain combines* used in 1996 were combined into one category: *Combines*
- *Swathers* and *Mower conditioners* used in 1996 were combined into one category: *Swathers and mower-conditioners*
- *Balers making bales less than 200 lbs.* and *Balers making bales 200 lbs. or more* used in 1996 were combined into one category: *Balers.*

(9) Value of Farm Land and Buildings

Refers to the market value of land and buildings on the operation on Census Day. It includes the value of all houses that are part of the operation; the value of fixed equipment/machinery found in farm buildings on the operation. It does not include the value of any land and buildings rented or leased to others.

(10) Farm Operating Expenses

Refers to gross operating expenses of the operation in 2000 (calendar year) or for the last complete accounting (fiscal) year.

Changes made in 2001 are as follows:

- *Custom work, contract work* and *machinery rental expenses* used in 1996 was split into two separate categories:
  -Custom work and contract work
  -Rental and leasing of farm machinery, equipment and vehicles
- *Diesel fuel, gasoline, oil and lubricants for farm machinery* and *Fuel expenses for heating and crop drying* used in 1996 were combined into one category: *All fuel (diesel, gasoline, oil, wood, natural gas, etc.).*

one acre or more with sales of agricultural products of $50 or more. In 1981 and 1986, the minimum sales requirement was increased to $250.

In 1991, a farm was referred to as a census farm, ranch or other agricultural holding which produces at least one of the following products intended for sale (no minimum sales requirement): crops, livestock, poultry, animal products, greenhouse or nursery products, mushrooms, sod or honey.

(2) Net Farm Operating Income

Salaries and wages paid to family members were excluded from Farm Operating Expenses when calculating Net Farm Operating Income.

(3) Operating Arrangements

The 1996 questions on year of incorporation for corporate farms and on other types of operations were omitted from the 2001 Census questionnaire.

(4) Farm Type

A farm is classified according to the predominant commodity produced. The commodity or group of commodities that account for 51 per cent or more of the total gross farm receipts determines the farm type.

(5) Land Tenure

In 2001, the *area sharecropped, rented or leased from others* was split into two separate categories:

- *Area rented or leased from others*
- *Area crop shared from others*

(6) All Other Land

All other land includes land on which farm buildings, barnyards, lanes, home gardens, greenhouses and mushroom houses are located; idle land; woodlots; sugarbush; tree windbreaks; bogs; marshes; sloughs; etc.

Since 1996, "All Other Land" also includes Christmas tree area. Some operators reported unplanted land intended for crops as idle land (a component of "All Other Land") since at the time of the Census of Agriculture, they were uncertain as to whether this land would be planted. This situation only affected farms not included in the Progress of Seeding Follow-up.

(7) Paid Agricultural Labour

Work done on the farm during the previous calendar year by persons 15 years of age and over, either on a year-round, seasonal or temporary basis. Work excludes housework, custom work and non-agricultural work.

(8) Value of Farm Machinery and Equipment

For the 1996 and 2001 Census of Agriculture, operators were asked to report the present market value of all farm machinery and equipment that they owned or leased on Census Day.

Changes made in 2001 are as follows:

- *Number* of items column used in 1996 was split into two categories:
  -Number owned
  -Number leased
- *Irrigation equipment* was added as a separate category
- Separate categories on *Two-wheel drive* and *Four-wheel drive* tractors were dropped from the 2001 questionnaire
- *Tractors under 20hp.*, *Tractors 20-39 hp.*, and *Tractors 40-99 hp.* used in 1996 were combined into one category: *Tractors under 100 hp.*
- *Self-propelled grain combines* and *Pull-type grain combines* used in 1996 were combined into one category: *Combines*
- *Swathers* and *Mower conditioners* used in 1996 were combined into one category: *Swathers and mower-conditioners*
- *Balers making bales less than 200 lbs.* and *Balers making bales 200 lbs. or more* used in 1996 were combined into one category: *Balers.*

(9) Value of Farm Land and Buildings

Refers to the market value of land and buildings on the operation on Census Day. It includes the value of all houses that are part of the operation; the value of fixed equipment/machinery found in farm buildings on the operation. It does not include the value of any land and buildings rented or leased to others.

(10) Farm Operating Expenses

Refers to gross operating expenses of the operation in 2000 (calendar year) or for the last complete accounting (fiscal) year.

Changes made in 2001 are as follows:

- *Custom work, contract work* and *machinery rental expenses* used in 1996 was split into two separate categories:
  -Custom work and contract work
  -Rental and leasing of farm machinery, equipment and vehicles
- *Diesel fuel, gasoline, oil and lubricants for farm machinery* and *Fuel expenses for heating and crop drying* used in 1996 were combined into one category: *All fuel (diesel, gasoline, oil, wood, natural gas, etc.).*

- *Rent and leasing of land and buildings on a cash basis* and *Rent and Leasing of land and buildings on a share crop basis* used in 1996 was combined into one category: *Rental and leasing of land and buildings*.
- *Electricity* and *Telephone and all other telecommunication services* used in 1996 were combined into one category: *Electricity, telephone and all other telecommunication services*.
- The *Packaging material expenses* and *Insurance premiums* categories no longer existed separately, but were included in *All other farm business operating expenses*.
- Question on *percentage of seed, plants, cuttings and bulbs purchased commercially* was dropped.
- *All Other Expenses* was phrased differently in 1996 and excludes depreciation and capital cost allowance.

(11) Gross Farm Receipts

Refers to gross farm receipts of the operation in 2000 (calendar year) or from the last complete accounting (fiscal) year.

(12) Spring Wheat

Spring wheat includes utility and prairie spring wheats.

(13) Winter Wheat/Fall Rye

Winter wheat or fall rye is to be harvested in 2001.

(14) Hay and Field Crops

- *Chick peas, Ginseng* and *Caraway seed are new variables in 2001.*
- *Fababeans, Triticale* and *Safflower* were removed and are reported under *Other Field Crops*
- *All other tame hay cut for silage* and *Other fodder crops* categories used in 1996 were combined into one category: *All other tame hay and fodder crops cut for hay or silage.*

(15) Vegetables Grown for Sale

Excludes greenhouse vegetables.

(16) Fruits, Berries and Nuts

The *Producing area* column was added for all fruit trees and nuts, and the *Number of bearing and non-bearing* categories was dropped.

(17) Christmas Trees

The 1996 question on *number of Christmas trees harvested* was not on the 2001 questionnaire.

(18) Herbicide/Insecticide/Fungicide Use

The area of land that has been treated with herbicides, insecticides and fungicides is under-reported. However, the data are comparable with previous censuses.

(19) Manure Application

As in 1996, the area of land on which manure was applied using each manure application method was under-reported. However, the 1996 and 2001 data are comparable.

(20) Soil Conservation Practices

In 2001, *Green manure crops for plough-down* and *Mechanical or hand weeding of crops* were added to this category.

(21) Cattle and Calves

In 2001, the *Heifers, 1 year and over* category used in 1996 was split into three separate sub-categories:

- *for beef herd replacement*
- *for dairy herd replacement*
- *for slaughter or feeding*

Due to response errors in 1996, the number of dairy cows and the number of farms reporting dairy cows may have been overstated, whereas the number of beef cows and the number of farms reporting beef cows may have been understated. The total number of cattle and calves, however, was not affected. These errors limit the comparability of the data between 1996 and 2001.

(22) Pigs

In 2001, the categories *All other pigs-under 45 lbs.* and *All other pigs-45 lbs and over* used in 1996 was replaces with:

- *nursing and weaner pigs*
- *grower and finishing pigs*

(23) Other Livestock

- *Wild boars* and *Elk* were added as separate categories and the *Rabbits* category was dropped, although rabbits were still reported under *Other livestock*
- Alpacas are now listed with *llamas*

(24) Colonies of Bees

As in 1996, some undercoverage, primarily of smaller operations with colonies of bees, occurred in 2001. However, the data are comparable with previous censuses.
